## EXPLORING NEW MARKETS FOR YOUR IMAGES?

We operate the latest Latex Printers that print on (nearly) anything up to 104 inches wide!

Unique projects demand specialized media including:

- Backlit Film
- Wall covering for designers, decorators, or room size murals
- Archival Fine Art Papers
- Canvas for large format Fine Art.
- Vinyl all types of indoor / outdoor applications and POP displays
- Textiles for indoor, outdoor displays and exhibits, fashion
- Perforated vinyl for window graphics
- Tough vinyl for sidewalk displays, covering rough exterior walls, and other demanding surfaces
- PVC Free Environments for healthcare, childcare, food service and more

This list could go on forever, give us a call if you're curious about something you don't see here!

Please contact us via email or phone at: [info@rcpscanning.com](mailto:info@rcpscanning.com) & 517-647-4600

## RCP LATEX PRINTING TECHNOLOGIES

HP Latex Inks are water-based inks that combine the best characteristics of solvent inks and water-based inks. You can obtain the outdoor durability and versatility, across all common media types used in sign and display applications, together with high quality, odorless prints, low maintenance, and the environmental advantages of water-based inks.

Prints made with HP Latex Inks are completely cured inside the printer to form a durable image that's ready for lamination, finishing, shipment, or display.

Wallcoverings and canvas

Light boxes

Outdoor and event banners

Temporary textiles
